## About the Book

From an American icon  
to a war-torn island,  
physical terror takes on a more sinister form.

After a heinous terrorist attack striking an iconic piece of American culture in the Country's heartland, veteran FBI Agent, Fred Jones, is partnered with CIA Analyst Sophia Evans who has a beleaguered past herself. The pair are then tasked with stopping an impending forewarned series of attacks. Attacks which are designed to strike fear in the heart of every American. Learning which city is in the crosshairs of the terrorist cell called the AIA and their homicidal leader Amell al-Gharsi. The duo launches a plan to stop the group once and for all. However, when things go awry, they learn that to stop Amell, they must first enter the terrorist haven of Yemen and a small island located off its coast Perim Island. There Sophia, along with a Navy SEAL team, learns that the real threat to America may lie much closer to home.
